

Product Specifications (Perforated Metal Mesh)

Material	Thickness Range	Hole Diameter	Open Area	Standard Sheet Size (mm)
Stainless Steel 201/304/316	0.5 - 6.0 mm	0.5 - 50 mm	10% - 60%	1000×2000 / 1220×2440 / Custom
Galvanized Steel	0.5 - 6.0 mm	0.8 - 50 mm	10% - 58%	1000×2000 / 1250×2500 / Custom
Aluminum	0.5 - 8.0 mm	1 - 50 mm	15% - 65%	1000×2000 / 1220×2440 / Custom
Stainless steel mesh is resistant to corrosion, ideal for harsh environments. Galvanized steel offers cost-effective durability. Aluminum mesh provides lightweight strength.				
Used in construction, filtration, decoration, ventilation, and machinery protection. Remarks: Custom sizes, hole patterns and finishes are available upon request.
